- **Given** user is logged into Parabank
- **When** user navigates to Accounts Overview page
- **Then** user should see a list of all accounts with balances

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/bill_pay.feature

Feature: Bill Payment

Scenario: Pay bill to a payee successfully

- **Given** user is logged into Parabank
- **When** user pays bill with following details

payeeName	Electric Company
address	New York
city	New York
state	NY

zipCode	10001
phone	9999999999
account	12345
verifyAcc	12345
amount	50

Then bill payment should be successful

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/find_transactions.feature

Feature: Find Transactions

Scenario: Find transactions using date range filter

- **Given** user is logged into Parabank
- **When** user navigates to Find Transactions page
- **And** user enters date range from "01-01-2025" to "12-31-2025"
- **And** user clicks the Find Transactions button for date range
- **Then** a table with transaction history should be displayed

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/fund_transfer.feature

Feature: Fund Transfer

Scenario: Transfer money between accounts

- **Given** user is logged into Parabank
- **When** user navigates to Fund Transfer page
- **And** user transfers amount "500" from account "12345" to account "54321"
- **Then** transfer should be successful

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/login.feature

Feature: Banking Login

Scenario: Successful login with valid credentials

- **Given** user is on Parabank login page
- **When** user enters username "john"
- **And** user enters password "demo"
- **And** user clicks login
- **Then** user should be logged in successfully

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/logout.feature

Feature: Logout

Scenario: User logs out successfully

- **Given** user is logged into Parabank
- **When** user clicks logout
- **Then** user should be logged out successfully

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/open_new_account.feature

Feature: Open New Account

Scenario: User opens a new account

- **Given** user is logged into Parabank
- **When** user navigates to Open New Account page
- **And** user selects account type "SAVINGS" and existing account "12345"
- **And** user clicks Open New Account
- **Then** new account should be created successfully

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/request_loan.feature

Feature: Request Loan

Scenario: User requests a loan

- **Given** user is logged into Parabank
- **When** user navigates to Request Loan page
- **And** user enters loan amount "5000" and down payment "500"
- **And** user clicks Apply Now

- **Then** loan request should be approved

file:///Users/ranajitchowdhury/eclipse-workspace/banking_automation/src/test/resources/features/update_contact_info.feature

Feature: Update Contact Info

Scenario: Update user contact information

- **Given** user is logged into Parabank
- **When** user navigates to Update Contact Info page
- **And** user updates contact info with:

firstName	John
lastName	Doe
address	123 St
city	NY
state	NY
zipCode	10001
phone	1234567890

- **And** user clicks Update
- **Then** contact info should be updated successfully
